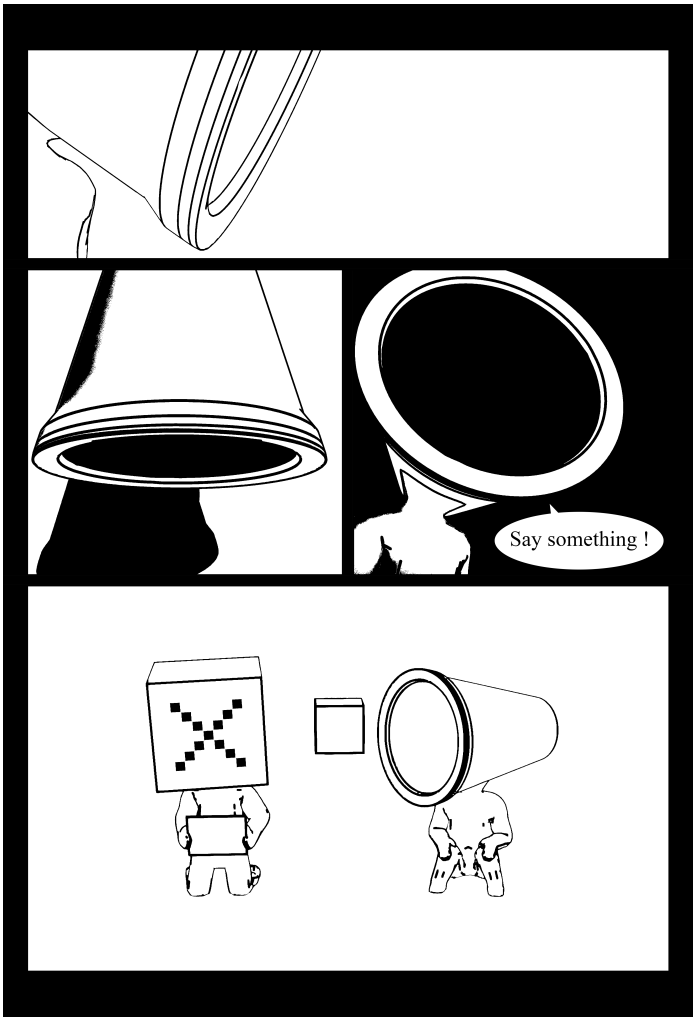
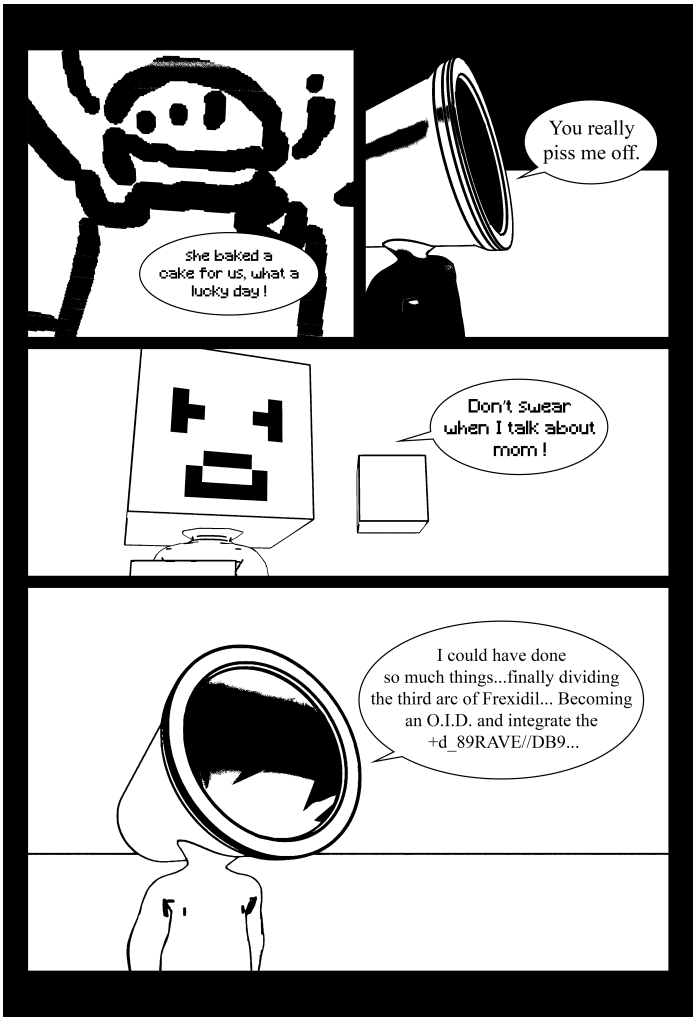
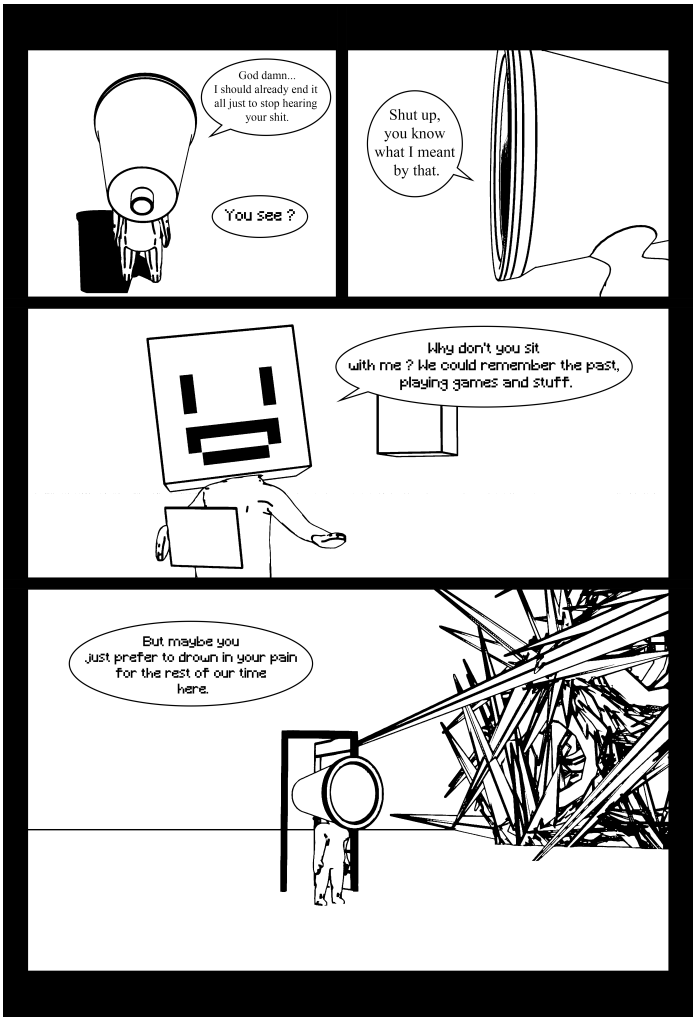
This is my family, we used to be happy and full of love.
This is my older brother, Smerxtrikalis.
And here, that's me...
...with a very big hat.
Shut up already !



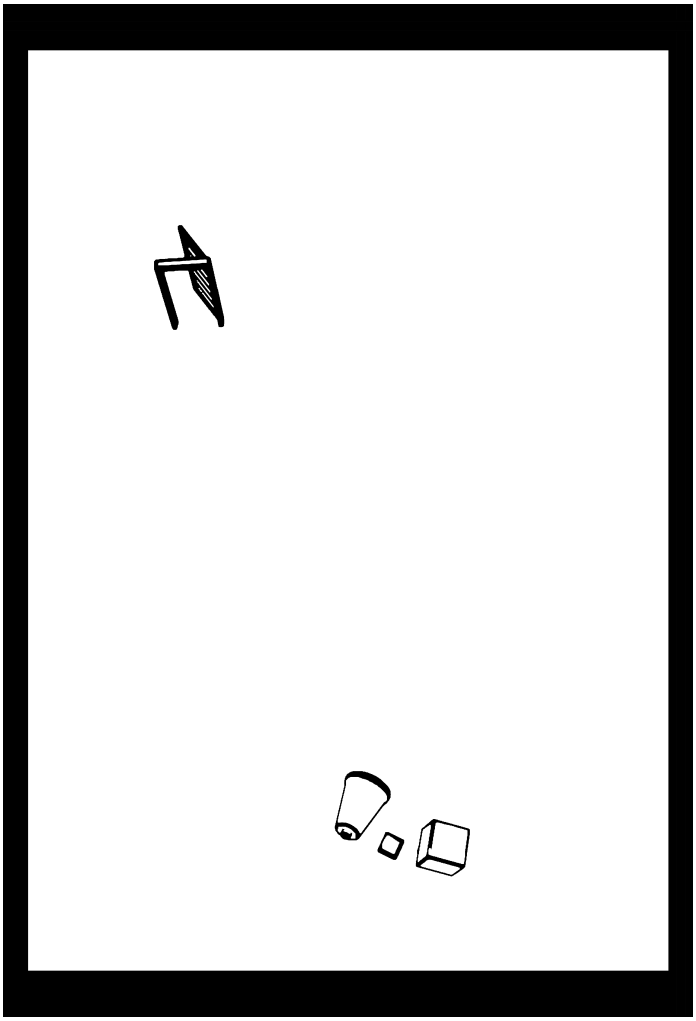
Say something !

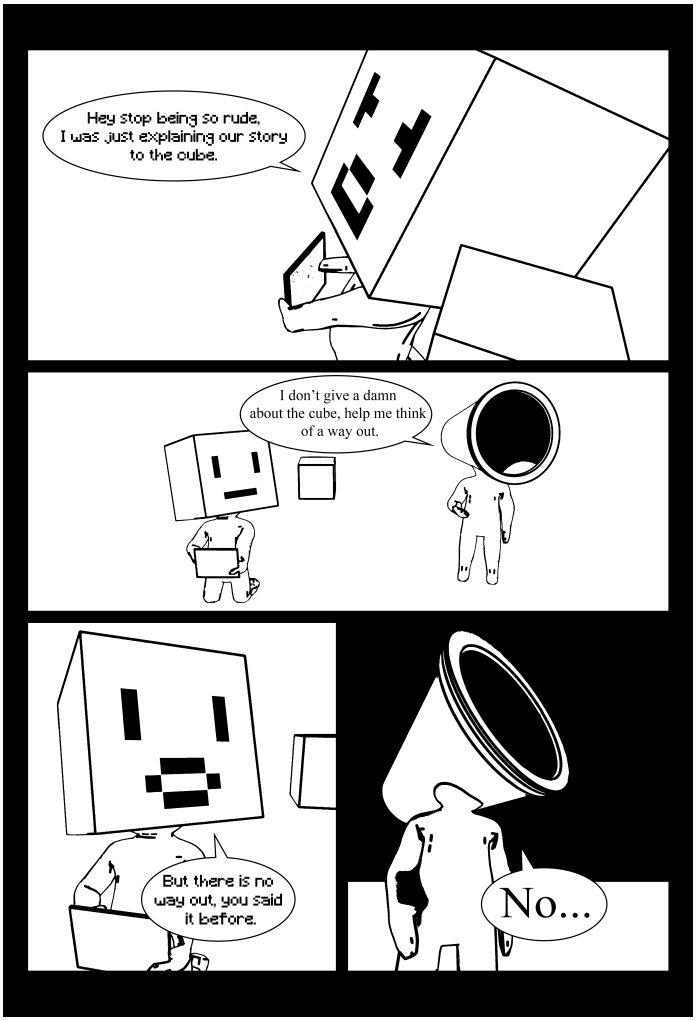


She baked a cake for us, what a lucky day !
You really piss me off.
Don't swear when I talk about mom !
I could have done so much things...finally dividing the third arc of Frexidil... Becoming an O.I.D. and integrate the +d_89RAVE//DB9...

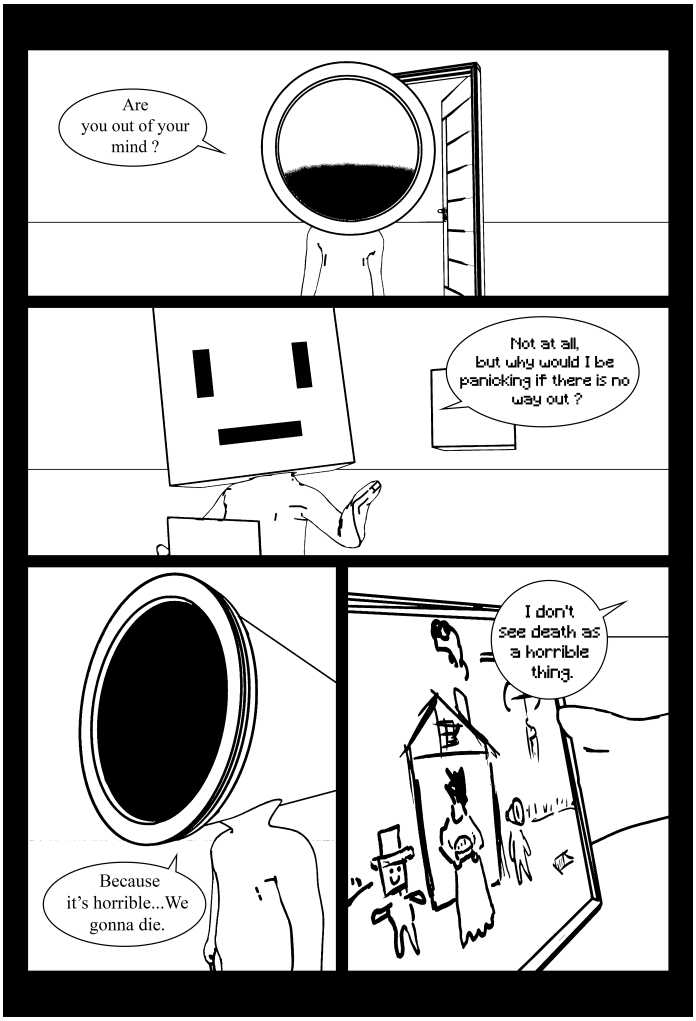


God damn... I should already end it all just to stop hearing your shit.
You see ?
Shut up, you know what I meant by that.
Why don't you sit with me ? We could remember the past, playing games and stuff.
But maybe you just prefer to drown in your pain for the rest of our time here.

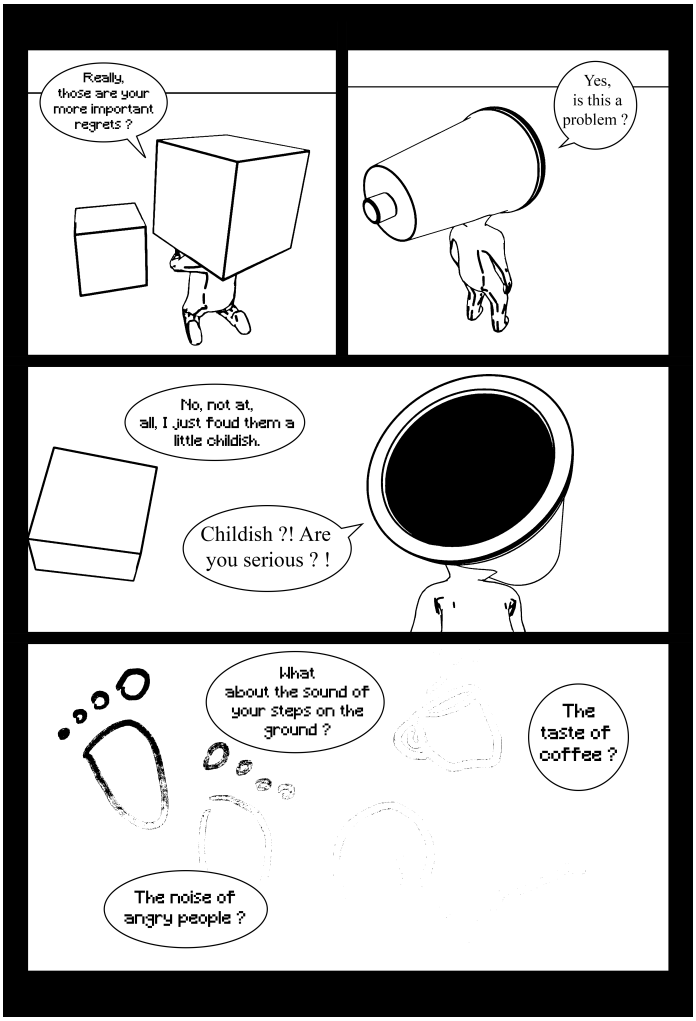




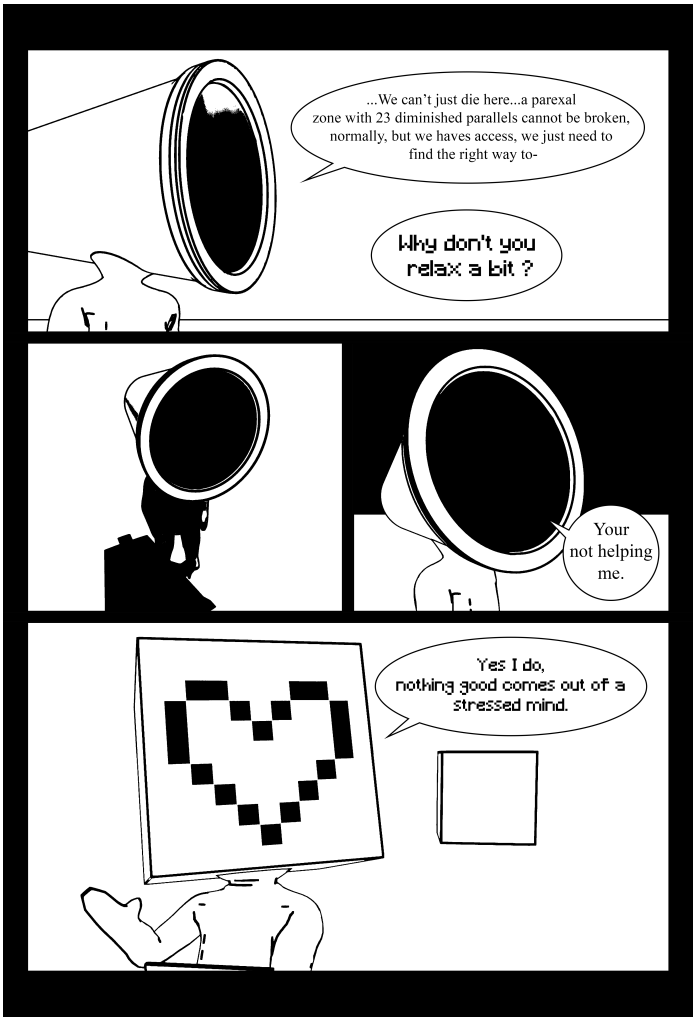
Hey stop being so rude, I was just explaining our story to the cube.
I don't give a damn about the cube, help me think of a way out.
But there is no way out, you said it before.
No...



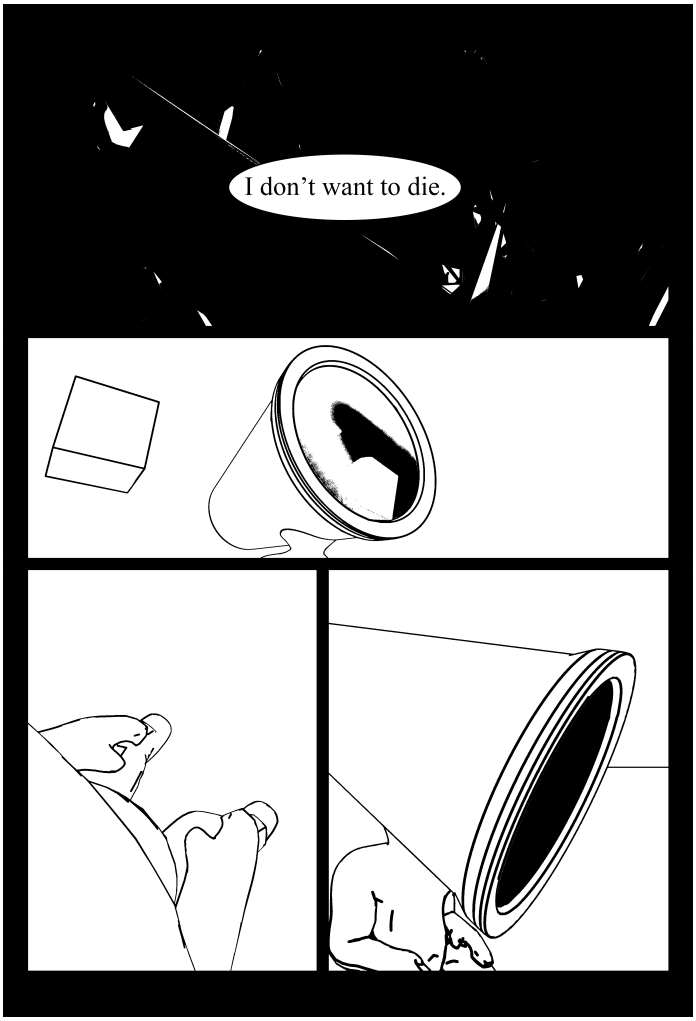
Are you out of your mind ?
Not at all, but why would I be panicking if there is no way out ?
Because it's horrible...We gonna die.
I don't see death as a horrible thing.



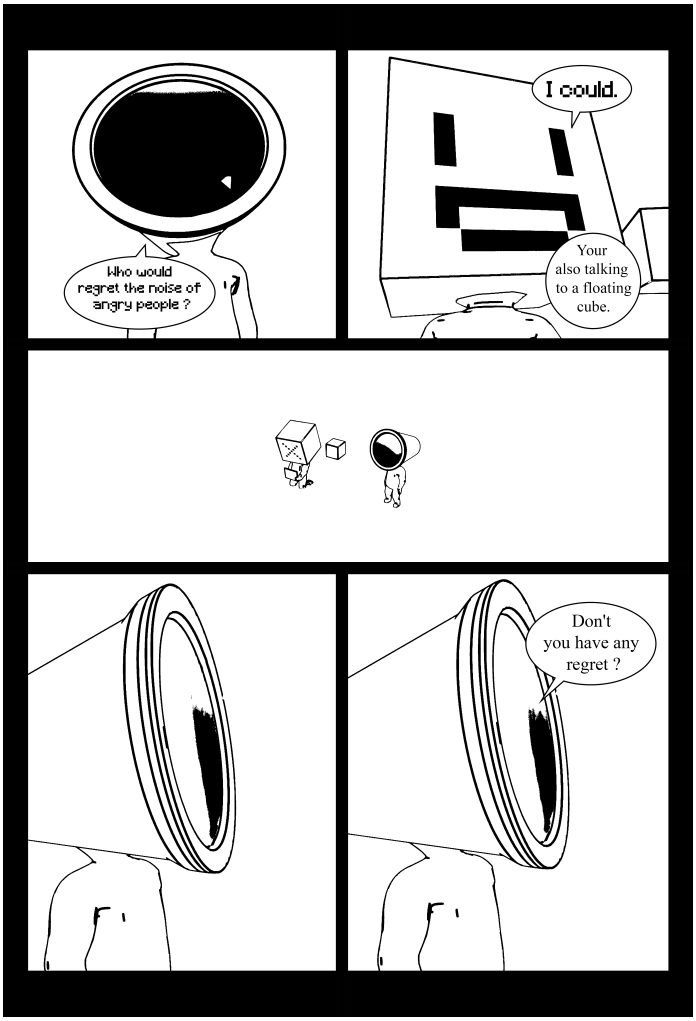
Really, those are your more important regrets ?
Yes, is this a problem ?
No, not at, all, I just foud them a little childish.
Childish ?! Are you serious ? !
What about the sound of your steps on the ground ?
The taste of coffee ?
The noise of angry people ?



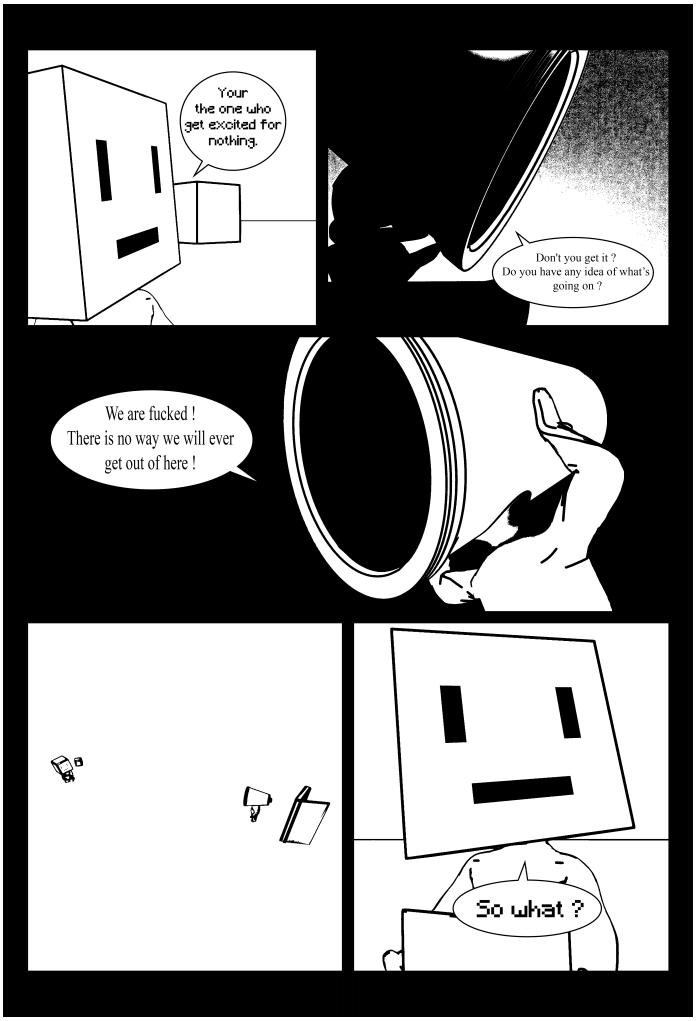
...We can't just die here...a parexal zone with 23 diminished parallels cannot be broken, normally, but we haves access, we just need to find the right way to-
Why don't you relax a bit ?
Your not helping me.
Yes I do, nothing good comes out of a stressed mind.



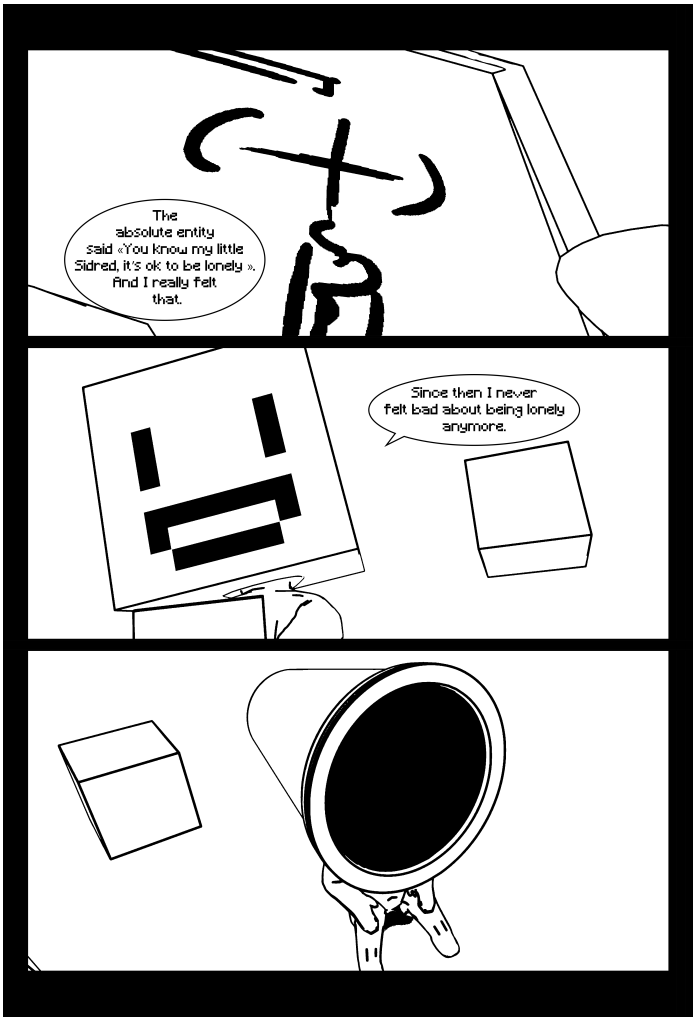
I don't want to die.



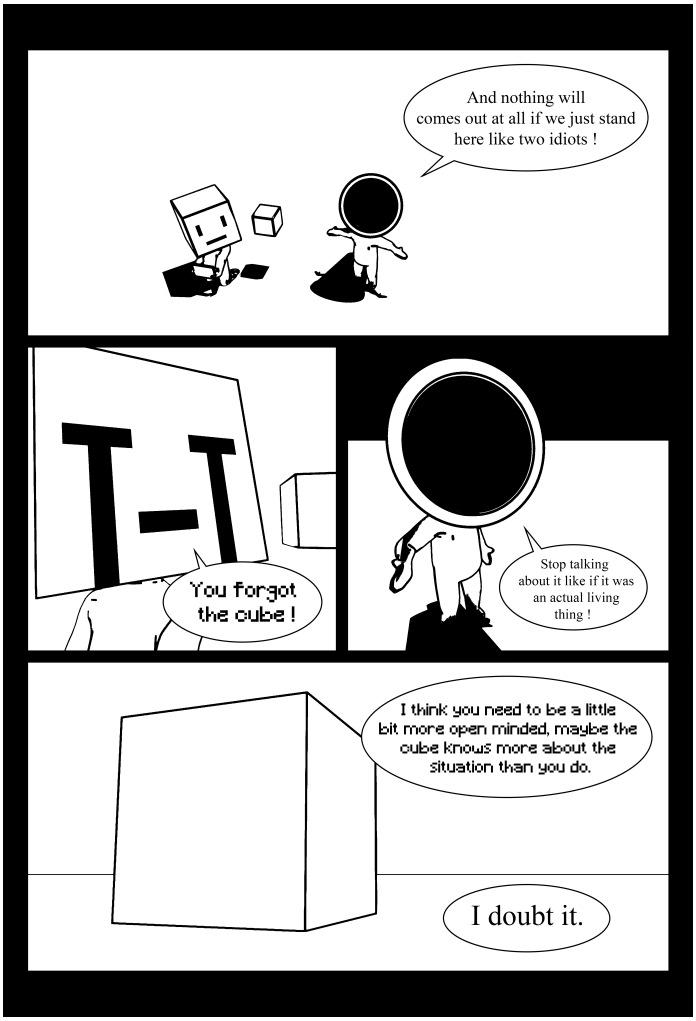
Who would regret the noise of angry people ?
I could.
Your also talking to a floating cube.
Don't you have any regret ?



Your the one who get excited for nothing.
Don't you get it ? Do you have any idea of what's going on ?
We are fucked ! There is no way we will ever get out of here !
So what ?

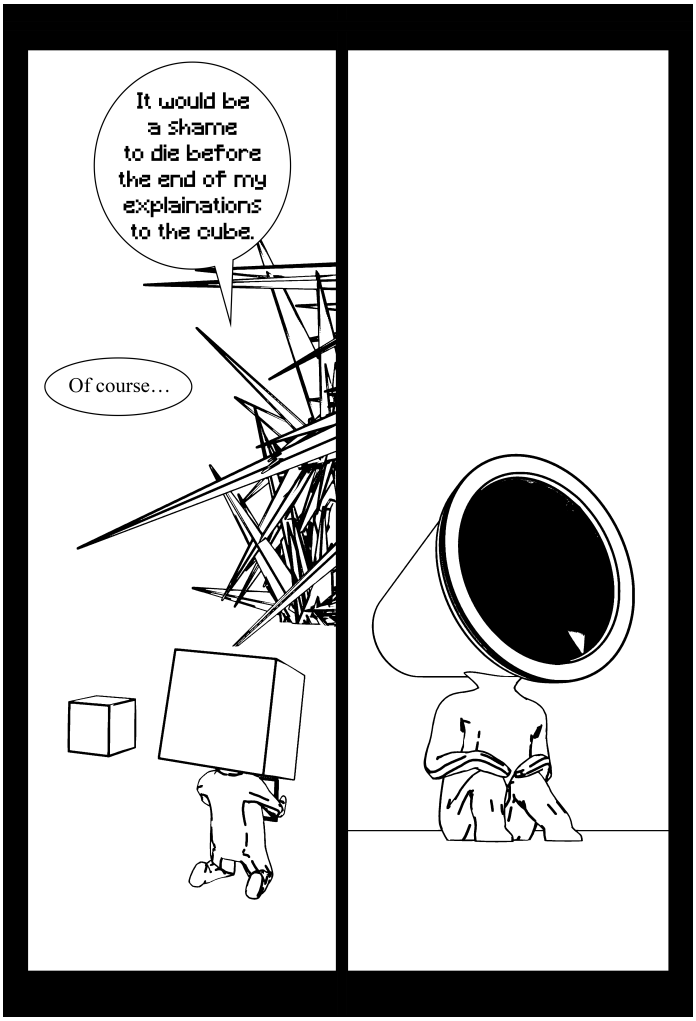


The absolute entity said «You know my little Sidred, it's ok to be lonely ». And I really felt that.
Since then I never felt bad about being lonely anymore.

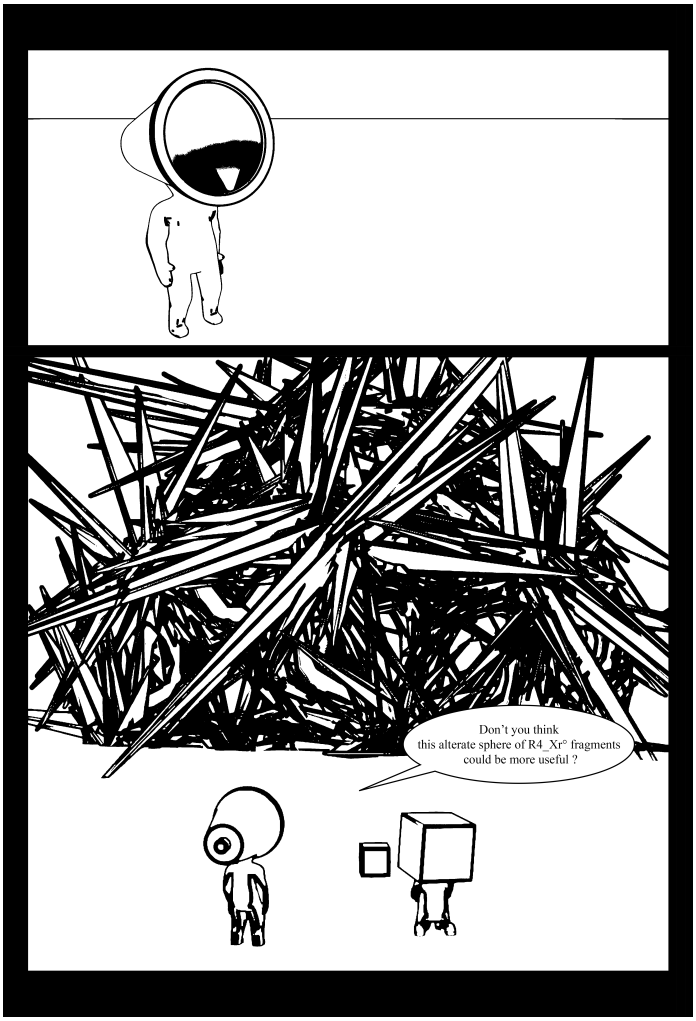


And nothing will comes out at all if we just stand here like two idiots !
You forgot the cube !
Stop talking about it like if it was an actual living thing !
I think you need to be a little bit more open minded, maybe the cube knows more about the situation than you do.
I doubt it.

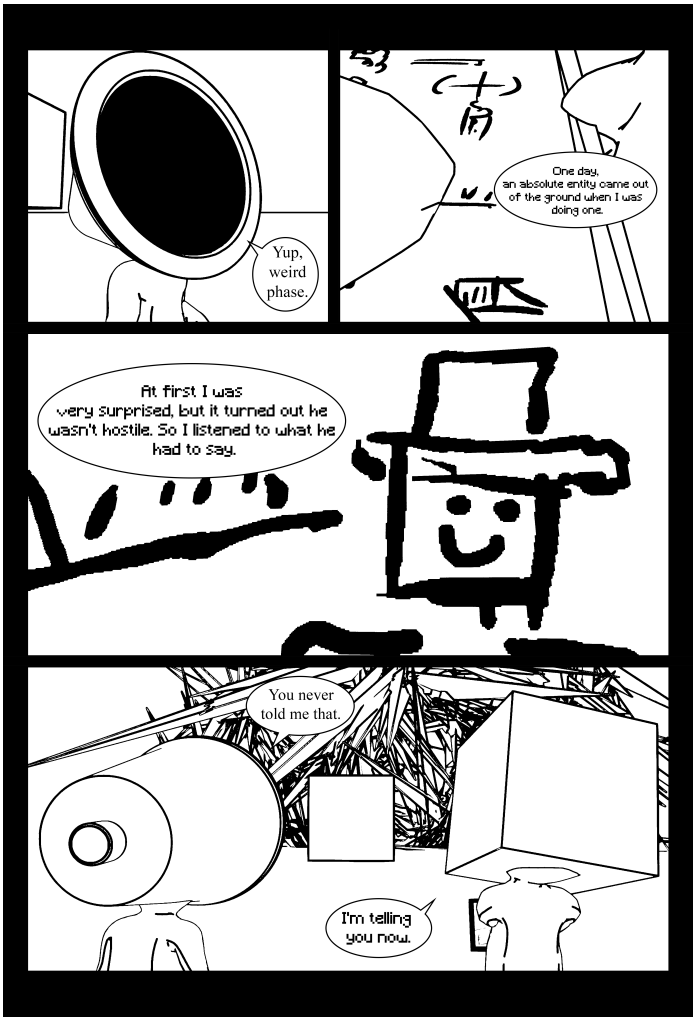
You see? Just a regular door with nothing behind.
I want to scream...This...This is too much.



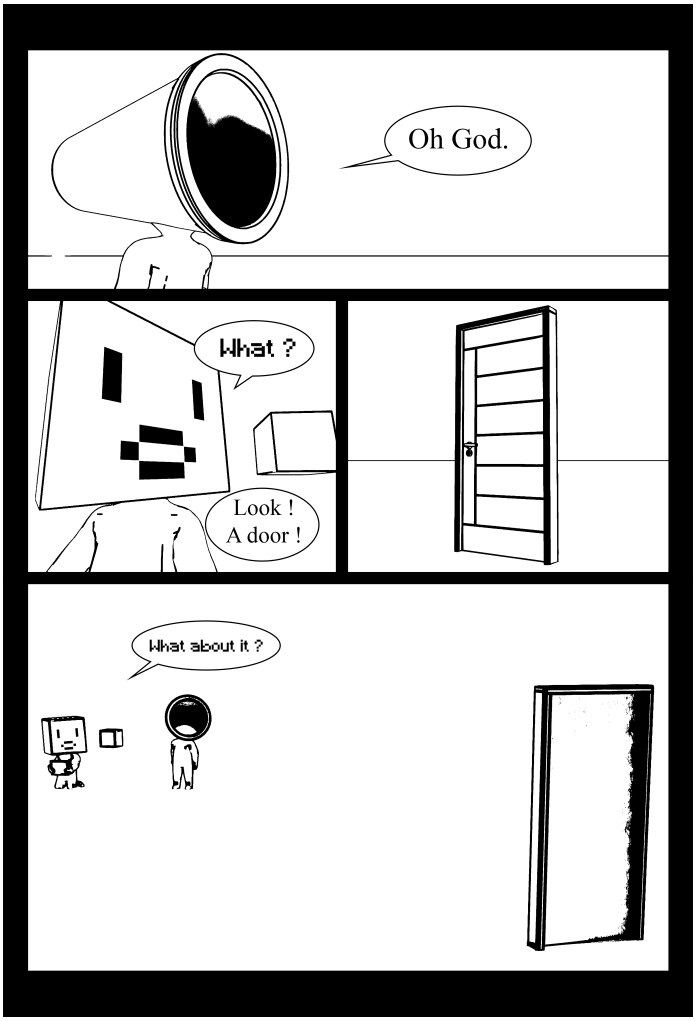
It would be a shame to die before the end of my explainations to the cube.
Of course…



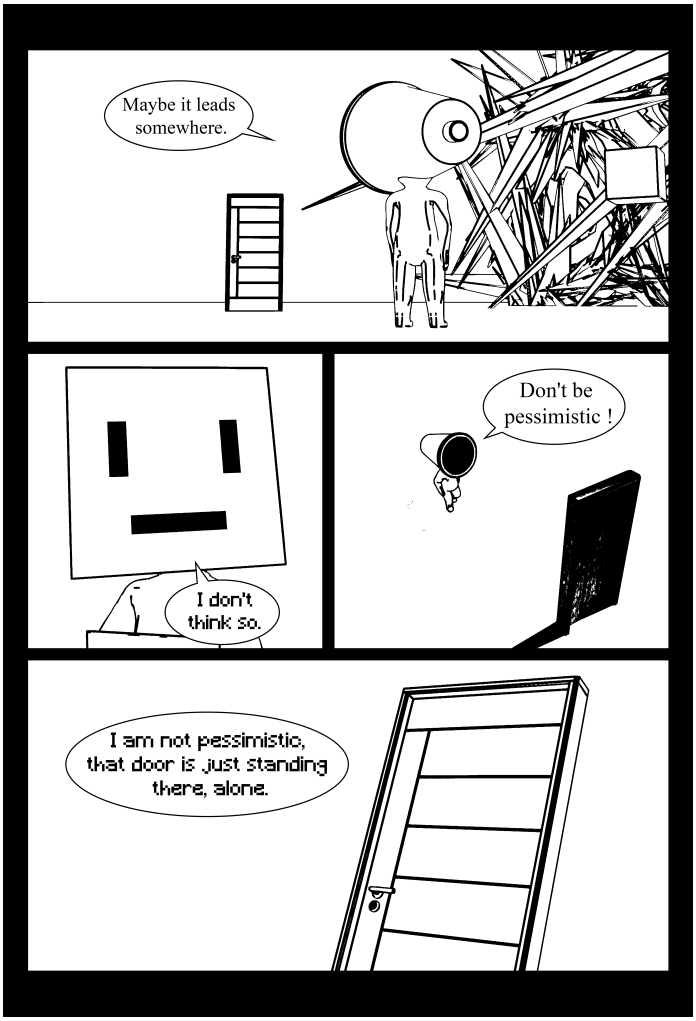
Don't you think this alterate sphere of R4_Xr° fragments could be more useful ?



Yup, weird phase.
One day, an absolute entity came out of the ground when I was doing one.
At first I was very surprised, but it turned out he wasn't hostile. So I listened to what he had to say.
You never told me that.
I'm telling you now.



Oh God.
What ?
Look ! A door !
What about it ?



Maybe it leads somewhere.
I don't think so.
Don't be pessimistic !
I am not pessimistic, that door is just standing there, alone.
